### Code Group - Engineering Office Manager / Sr. Code Consultant – New York Office

Cosentini Associates ([www.cosentini.com](http://www.cosentini.com)), a Tetra Tech company, is seeking a dynamic energetic and motivated senior level Fire Protection Engineer and Code Consultant to join the growing Cosentini Code Group's Code Consulting and Fire Engineering Practice. Cosentini is an international engineering firm specializing in building systems design for a range of projects, including office and residential buildings, laboratories, academic and government facilities, performing arts, museums, tenant interiors and more.

#### About this opportunity:

As a Code Consultant and Fire Protection Engineer Manager, you will:

- Apply your engineering and consulting expertise on exciting and challenging projects.
- Join a strong national leadership team that has established a strong presence within the market
- Work with junior staff to manage and develop project deliverables
- Lead and mentor junior engineers
- Develop new and maintain existing clients
- Manage signature projects involving innovative solutions to complex building challenges
- Be instrumental in the development of a Code Consulting Practice

#### What's so great about this job?

- Cosentini Code has an exciting and growing portfolio of work with both internal and external clients
- Opportunity to join one of the top code consulting and fire engineering practices
- Autonomy to direct career and practice growth and development
- Responsibility for technical engineering work and business financials
- Apply your diverse skillset, developing innovative solutions for signature buildings in this strong market
- Growth potential with access to a market-leading compensation and benefits package
- Join our team that has worked hard to foster an environment of responsiveness, efficiency, accountability, and fun.

#### What kind of candidate are we looking for?

- A talented and highly motivated individual
- Licensed professional engineer in Fire Protection Engineering or related field with experience in fire protection
- B.S. or M.S in Fire Protection Engineering or related field of study
- 10+ years of experience in code consulting; experience with fire modeling, fire alarm and automatic sprinkler system design is a plus.
- Preferred candidates will have experience in approaching new and existing clients in the interest of growing a business.
- Excellent technical skills, strong communication and interpersonal skills, and great leadership abilities.
- Experience to manage and deliver engineering work on multiple projects for multiple clients

**Why join Cosentini Code?**

With a reputation for innovation and responsiveness in the design and construction industry, Cosentini Code offers a differentiated, full-service solution to our clients. With a practice that is purposefully not top-heavy with corporate load, we are positioned to offer the level of service that our clients have come to expect in a very competitive, yet profitable manner. Void of unnecessary inter-office titles, we compensate our team members based on their contributions to our bottom line profitability rather than years of service or intermediary positions. As part of the Tetra Tech family of companies, we are home to some of the best minds in the country, including nationally renowned subject matter experts. Tetra Tech employs approximately 16,000 people with more than 330 offices worldwide.

“Cosentini Associates/Tetra Tech, Inc. is an equal opportunity employer. We invite resumes from all interested parties including, women, minorities, veterans, and persons with disabilities.”
