

ENGINEERING

Mechanical/Electrical Engineering Consultants

M/E Engineering is currently interviewing for a Plumbing/Fire Protection Senior Engineer position in our Rochester, New York location. M/E Engineering, P.C. is committed to leveraging the talent of a diverse workforce to create great opportunities for our business and our people.

Responsibilities

- Develop Plumbing/Fire Protection Systems for educational, institutional, industrial, healthcare, and commercial facilities.
- Work with technical teams such as Project Engineers, Project Managers, Project Architects to support design development.
- Lead the design development by creating reports, calculations, drawings, cost estimates, specifications, and deliverables.
- Travel to project sites to verify conditions and installation during construction.
- Approve submittals and support RFI responses during construction administrations.
- Communicate with clients, use project workflow documents, attend client interviews, estimate man-hours, and assist in the preparation of proposals.
- Develop and mentor staff designers and engineers.

Education and Experience

- Bachelor of Science in Mechanical Engineering or equivalent.
- Eight years of experience in responsible charge of project design in respective discipline plus advanced courses, training program or seminars relating to Engineering and Management
- Preferably has a Professional Engineering License (P.E.) or Engineer-in-Training (E.I.T.) working toward P.E. Licensing.
- CAD (REVIT) experience preferred.
