Authority:                        TA/OA

Department:                   System Safety

Division/Unit:                  Risk Assessment & Fire Safety

Reports to:                     Manager, Fire Safety

Work Location:               2 Broadway, Manhattan

Hours of Work:               As required

**Compensation**

System Safety Specialist I:    $55,493 - $65,696
System Safety Specialist II:   $64,433 - $71,762
System Safety Specialist III:  $72,835 - $83,034
System Safety Specialist IV:  $81,139 - $94,307

**Responsibilities**

Development and implementation of fire/life safety policies and procedures, interpretation of applicable codes and standards, review of design drawings and specifications for fire/life safety requirements, conducting field safety surveys and inspections.  Also responsible for acceptance test witnessing and on-site inspections of new and existing fire suppression/detection systems; Responsible for coordinating/conducting interagency emergency preparedness exercises; Work with Construction Managers during the installation of fire protection systems to ensure compliance with NFPA Standards and applicable local codes.  Respond to and conduct investigation of fires that occur on the system that cause significant property damage or result in injuries to customers or employees.

**Education and Experience**

A four-year high school diploma or its educational equivalent plus six (6) years of full-time professional system safety work acquired while working for the N.Y.C. Transit; or

A BA/BS from an accredited college in engineering, fire safety, environmental or occupational safety, ergonomics, statistics, mathematics, chemical, physical or biological science, industrial hygiene, safety management, or a related field; plus at least two (2) years of satisfactory full-time experience in professional safety work; or

Educational and/or experience equivalent to that listed above. A master's degree may be substituted for one (1) year of experience. However, all external candidates must have a bachelor's degree and at least one (1) year of experience as describe above. Additional experience needed for higher levels.

**Desired Skills**

Experience in fire safety inspections and fire investigation cause & origin determination.  Knowledge of fire safety related codes and standards including NFPA, NYC, NY State and International Building codes.  Strong computer, written and verbal communication skills.

**Selection Method**

Based on evaluation of education, skills, experience and interview.

All selected candidates will be subject to a full background investigation that includes employment and education. Discrepancies may lead to dismissal.

**Other Information**

Appointment may be at a comparable level to current level of selected candidate.

As an employee of NYCT you may be required to complete an annual financial disclosure statement with the State of New York, if your position earns more than $91,821 (this figure is subject to change) per year or if the position designated as a policy maker.
