COMPANY OVERVIEW: ECS is an award-winning consulting firm offering geotechnical engineering, construction materials testing and environmental and facilities consulting services. Founded in 1988, the firm is ranked by ENR among the top 100 engineering and environmental firms in the country. We have a network of nearly 50 offices and experience in multiple industry sectors. Our commitment is to provide high-quality and innovative consulting and engineering services. "Setting the Standard for Service" isn’t just our tag line... it’s the foundation of our business.

ECS is an Equal Opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, age, disability, veteran status or other protected category. E-verify and federal drug-free work place compliant.

RESPONSIBILITIES:
When hired for this position you will interface with clients on a daily basis. The ideal candidate will be a high energy person with proven ability and a strong interest in marketing and business development. From a technical standpoint you will be primarily involved with fireproofing and fire stopping inspection projects, but will also be called on to perform building and property condition assessments, design of repairs to existing building envelope components including: roofs, curtain walls, masonry, EIFS and pre-cast concrete. Responsibilities include overseeing field projects, preparing and reviewing reports, preparing proposals for related services, and marketing our services by maintaining regular client interactions. You will mentor other facilities engineering staff and play a key role in marketing building facilities services throughout the region. Candidates should have an interest in fire protection as well as a broadened interest in Facilities, Building Envelope, and Specialty Materials Testing projects. This is not a design or maintenance management position.

QUALIFICATIONS:
- A minimum of a BS degree in Materials, Mechanical or Structural Engineering (or a related discipline) from an ABET accredited college/university required.
- 5 months-2 years of relevant experience.
- Engineer-in-Training, Professional Engineer, or Registered Architect license highly desired.
- Strong marketing and business development skills; candidates should have the ability to manage and develop existing and new clients.
- Proficiency in oral and written communication, and strong project and personnel management skills.
- Strong leadership and decision-making skills.
- Must be self-motivated and responsible.
- Ability to work well with others, and build a team.

Notes: Please indicate your compensation expectations ($/Year) when applying for this position. Failure to do so may disqualify you from consideration. This position is exempt under FLSA.

ECS does not supply vehicles; therefore, you must be able to provide a vehicle suitable for use on construction sites. We will compensate you at $0.54/mile for use of your own vehicle for work related activities. Driver’s license verification required; must have a satisfactory driving record in accordance with the ECS driving policy.

If hired for this position you will join an office with a fun, business-casual atmosphere. ECS is committed to providing a diverse, drug-free work place and believes our employees are our greatest asset. We respect hard work and honesty in our employees. We provide ample industry related training, comprehensive benefits and a broad range of career opportunities. Pre-employment drug screening is required; random and post-incidence drug screening is also undertaken. ECS will not provide visa sponsorship for this position. Candidates requiring sponsorship now or in the future will not be considered.
