

Fire Protection Designer Internship – Fire Alarm & Special Hazards

Ahern, one of the leading mechanical and fire protection contractors in the United States, has an exciting opportunity for a Design Intern within our Fire Protection Division in either Milwaukee, WI or Fond du Lac, WI. Building a first class reputation in the industry since 1880 did not happen by chance. It has developed over time through our commitment to conducting business ethically and by providing continuous learning, improvement and development opportunities for its number one asset, employees. You owe it to yourself to find out what Ahern has to offer!

How you will contribute:

This is a great opportunity to use your degree while playing a key role on various fire suppression system projects. As a Design Intern you will exercise your attention to detail while designing the layout of fire alarm systems and special hazards fire protection systems using an AutoCAD based software. Additional responsibilities include computer generated hydraulic calculations, submittal drawings to obtain required building permits, 3D BIM coordination using NavisWorks, project scheduling, on-site field surveys, material stock listing for pre-fabrication, installation drawings, and prepare close-out and project operation and maintenance documents.

What you need to qualify:

Prior experience working in AutoCAD and strong math and analytical skills is preferred. Candidates should be currently pursuing an associate or bachelor's degree in a related field, preferably Fire Protection. Knowledge of the construction industry is helpful.

What's in it for you?

Working for the 18th largest mechanical contractor in the United States comes with many perks. The Company has a commitment to excellence that extends beyond our outstanding customer satisfaction ratings and numerous safety awards. Ahern offers a structured, hands on and challenging internship experience. Talented, results minded Interns step to the front of the line for full time positions. If you are interested in applying what you're learning in the classroom, this is the chance for you! Experience for yourself why Ahern has been voted the Best Place to Work!
