

Fire Protection Engineer

Summary:

Value Added Solutions, Inc. (VAS) is currently seeking Fire Protection Engineers to support the U.S. Department of Energy's Waste Isolation Pilot Plant (WIPP) near Carlsbad, NM. WIPP is a deep geological repository licensed to permanently dispose of transuranic radioactive waste for 10,000 years that is left from the research and production of nuclear weapons.

Qualifications:

- BS Fire Protection Engineering
- Minimum 5 years direct experience with DOE order 420.1c and Standard 1066-12 compliance
- Proficient in FHA's and management self-assessments
- Capable of assuming lead technical position for DOE fire protection program compliance
- P.E. is preferred, but not required

Per Diem is available for those who qualify.
