About the ANR Group Inc Student Intern Program

An internship with ANR Group Inc and an assignment to work at the Hanford site is an opportunity for college students to work on meaningful projects that have a unique history. These internship assignments provide professional development opportunities for college students in a number of disciplines, including: engineering, business, science, environmental, construction management, health and Safety, and many other fields. Challenging work experiences are provided for students who are willing to work hard and eager to build work experience towards their degree.

We are faced with exciting, yet challenging work on the Hanford site and we look forward to introducing you to these opportunities.

The Hanford Project is located in southeastern Washington State along the scenic Columbia River. The nearby communities are known as the Tri-Cities and consist of the cities of Richland, Kennewick, and Pasco. Three rivers and nearby mountain ranges provide unlimited sporting and recreational activities. There are more than 100 parks, nine golf courses, and over 32 miles of paved biking/hiking paths in the area. It is an easy place to live and a challenging place to work.

Selection Criteria:

Candidates must be working on the completion of a college degree in one of the following Engineering, Science or Business disciplines.

Business & Administration:

Accounting, Business/Related, Communications, Computer Science, Human Resources, Law, Management Information Systems, MBA.

Engineering:
