Engineering

Project
Take on the challenges of improving our national security and creating a revolution in manufacturing. Join the CNS Y-12 team in the transformation of a premier National Security Complex into the workplace of the future. Y-12 offers a unique work environment, highly-specialized workforce and one-of-a-kind technologies. With initiatives emerging constantly, you will never have a shortage of roles and challenges to take on.

Specific Job Responsibilities:
The Y-12 National Security Complex is currently recruiting for summer 2019 internship opportunities in Engineering (Chemical, Civil, Computer, Electrical, Fire Protection, Mechanical, Nuclear, and other Engineering Disciplines) and Science (Chemistry, Computer Science, Mathematics, Physics, and other Science Disciplines). The Internship Program is a 10-12 week program that offers challenging assignments, projects and career development workshops to enhance your professional growth. You will also earn a competitive salary based on your discipline and academic class status. The dates of the internship would be June 3 - August 8.

The internship position will remain open until all candidates have been identified.

Please visit our sister site, www.pantex.com, if you are interested in internship opportunities with Pantex in Amarillo, TX.

Specific Job Knowledge & Training Required:
To be considered for the Engineering Intern position, you must be working toward or have completed a degree in Engineering. Students who have graduated are eligible up to one year post graduation. In addition, you must have completed (at a minimum) your sophomore year in college, have an overall GPA (grade point average) of 2.8 or above, and be a United States Citizen.

A completed online application is required. You must include a resume and current transcript. Ensure that your graduation date and GPA are listed on your resume. Failure to attach a resume and transcript will eliminate you from the selection process.
