

“Our Mission Goes Beyond Our Name”

The City of Austin Fire Department is looking for a Graduate Engineer A or B; or Engineer A or B to fill the role of a Fire Protection Engineer.

Position Summary

The Top Candidate for this position will work as a Fire Protection Engineer and will be assigned to work on the Expedited Review Team. The Team consists of 8 plan reviewers, representing different City review disciplines who are involved with reviewing building permit plans for new construction projects. The team’s goal is to reduce plans review turnaround times and issuance of building permits.

Preferred Qualifications:

- Knowledge of various National Fire Protection (NFPA) standards including NFPA 13, NFPA 72, NFPA 14, and NFPA 20.
- Knowledge of the International Fire Code and the fire protection provisions of the International Building Code.
- Valid Texas Class “C” Driver License.
