Named a “Top Workplace” by the Washington Post, NIKA is a well-established company that is focused on growth within an entrepreneurial environment. We work with governments to design, build and manage real property by combining facilities operations management, engineering, and architecture all under one roof.

At NIKA, you’ll be excited to come to work each day. This position comes with a competitive salary package that includes health/dental insurance, 401(k), bonus programs, and many other perks.

Education:

- Bachelor’s Degree in Fire Protection Engineering or Mechanical Engineering required
- Professional Engineer License in Fire Protection Engineering required

Primary Duties and Responsibilities:

- Fire protection and life safety evaluations
- Life safety designing & preparing drawings
- Analysis of existing fire protection & life safety deficiencies
- Design fire protection & life safety systems
- Prepare and present fire protection & life safety training
- Design fire protection systems
- Prepare and present technical reports and presentations
- Ability to multi-task including directing staff, mentoring other engineers, producing documents and coordinating with other trades.

Job Requirements and Essential Skills:

- Extensive healthcare experience in fire protection & life safety
- Extensive federal government experience
- Extensive experience working with local AHJ's
- Professional engineering registration required
- BS or higher in Fire Protection Engineering or Mechanical Engineering with ten (10) or more years of experience.
- AutoCAD experience and/or experience with Revit strongly preferred
- Excellent report writing and interpersonal skills.
- Excellent communication skills and ability to present clear and technically sound fire protection engineering strategies
- Leadership potential

Security/ Travel:

- Must be a U.S. citizen
- Ability to obtain security clearance is required
- Travel approximately 10+ times per year
About NIKA
NIKA delivers comprehensive services and solutions to support the full life cycle of facilities. For more than two decades, the Department of Defense and federal civilian agencies, as well as commercial and higher education institutions, have trusted NIKA to design, build, operate, and manage their real property. By combining facilities operations management, engineering, and architecture services, we provide value and expertise for complex and mission critical facilities. Headquartered in Rockville, MD with offices in San Antonio, TX, NIKA helps clients enhance operational excellence in locations around the globe.

NIKA is an Affirmative Action and Equal Opportunity Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, or protected veteran status and will not be discriminated against on the basis of disability.
