JOB OPENINGS

BE A PART OF A TEAM THAT EMPOWERS ITS STAFF TO ACCOMPLISH GREAT THINGS.
FLEX TIME WITH GENEROUS SICK AND VACATION TIME!

THE COMPANY
Established in 2010, TERPconsulting is a mid-sized fire protection engineering and code consulting firm with offices in Boston, Denver, Las Vegas, Los Angeles, and Phoenix. TERPconsulting allows you to work at a medium-sized firm that has large-firm project experience with a small-firm feel. Our primary focus is fire/life safety code consulting, fire protection engineering, construction management, and fire protection system inspection and testing.

Come to work at a growing company that fosters a team spirit and offers an opportunity to work with accomplished engineers and business leaders. Work on high-profile domestic and international projects. We have openings for the following positions:

CODE CONSULTANT
We’re looking for a full-time code consultant with a minimum two years’ experience in fire protection engineering and code consulting. The ideal candidate will be responsible for field inspections, writing technical reports and cultivating new and existing client relationships. Must possess excellent written and oral communication skills, ability to work independently, and willingness to learn.

MINIMUM QUALIFICATIONS
• B.S. or M.S. in Fire Protection Engineering
• Minimum two years’ relevant experience in fire protection engineering and code consulting.
• Ability to understand and communicate technical issues as they pertain to building and fire codes and standards.
• Professional engineering license or desire to obtain license.
• An interest in working with a small team focused on results.
• AutoCAD and/or Revit experience a plus.
• Fire modeling experience a plus.
• Special inspection and other field experience a plus.

THE LOCATION
This position offers a flexible work schedule and will be based in the Boston area.

FIRE ALARM SYSTEM DESIGNER
We’re in need of a full-time fire alarm designer with a minimum two years’ experience. The ideal candidate will be responsible for layout and design of various building types and industries.

MINIMUM QUALIFICATIONS
• Minimum two years’ experience with AutoCAD or Revit
• NICET Fire Alarm Systems Layout Level II is preferred
• Experience in fire protection or related engineering field
• An interest in working with a small team focused on results
• Proficient in Microsoft Office and productivity applications
• Flexible schedule and work location.

SPRINKLER SYSTEM DESIGNER
We’re in need of a full-time sprinkler designer with a minimum two years’ experience. The ideal candidate will be responsible for layout and design of various building types and industries.

MINIMUM QUALIFICATIONS
• Two years or more experience with AutoSPRINK
• NICET Water-based Systems Layout Level II preferred
• Experience in fire protection or related engineering field
• An interest in working with a small team focused on results
• Proficient in Microsoft Office and productivity applications
• Flexible schedule and work location.
