Wiss, Janney, Elstner Associates, Inc. (WJE) is seeking an exceptional entry-level Fire Protection Engineering Associate to join our Fire Protection and Life Safety group in San Diego, California.

WJE is a global firm of engineers, architects, and materials scientists committed to helping solve, repair, and avoid problems in the built world since 1956. WJE’s Fire Protection and Life Safety group was started in 2014 and is a growing team of industry-leading experts in fire protection principles, life safety, building codes, and evaluation techniques for all types of new and existing structures.

At WJE, we spend almost as much time in the field, up close and personal with our projects, as we do in the office. As a Fire Protection Engineering Associate, you will not only have the opportunity to learn from and grow alongside industry experts, but you will be an integral part of building WJE’s emerging Fire Protection and Life Safety practice.

Requirements:

- Bachelor’s degree or better in fire protection engineering or related field, from an accredited program
- Enthusiasm and curiosity for solving problems and understanding how things work
- Focused interest in fire protection and life safety objectives and challenges in the built world
- Ability to work in the field, both locally and outside the local area
- Strong technical, written, and verbal communication skills
Responsibilities:

- Assume responsibility for key aspects of projects and complete assignments with limited oversight
- Perform on-site investigations, condition assessments, and inspections, which may include surveying, documenting distress, field testing, collecting data and samples, and preparing site visit reports
- Analyze field data and perform research to facilitate analysis, problem solving, and repair design
- Perform analysis of fire protection systems and/or building code issues under the guidance of licensed professionals
- Assist with drafting and preparation of client deliverables, including construction documents, specifications, and written reports
- Contribute to in-house technical research projects

Physical Requirements:

The physical demands described here are representative of those that must be met by an employee to successfully perform the essential functions of this job. This position requires visual acuity and listening ability. Individuals must have the dexterity to be able to operate office and field equipment such as computer, printer, fax, copier, telephone, voice mail system, and other office and field equipment. Requirements may also include:

- Ability to attend meetings at the various office, field, and construction sites
- Ability to perform inspections of buildings and other structures, both visually and with instruments
- Ability to lift and carry materials and equipment up to 50 lbs.
- Ability to perform work in the temperature extremes presented by work in the outdoors
- Ability to read construction drawings, diagrams, printed materials, and computer screens
- Ability to record data clearly and write passages for reports, letters, etc.
- Ability to travel
- Ability to safely work at heights
- Ability to safely use and/or operate ladders, scaffolds, lifts and other access equipment
- Ability to understand and appreciate safety training specific to numerous workplace and construction hazards
- Ability to safely work in a variety of occupationally hazardous locations
- Medically fit to utilize respiratory protection devices and other forms of Personal Protective Equipment
- Ability to drive and safely operate a motor vehicle

WJE is an Equal Opportunity Employer. We invite all qualified applicants to apply including individuals with disabilities, minorities, women, and protected veterans (VEVRAA federal contractor).
WJE will consider qualified applicants with criminal histories in a manner consistent with the requirements of Fair Chance Ordinances.
