

GRADUATE FIRE PROTECTION AND LIFE SAFETY ASSOCIATE – CLEVELAND, OHIO

Job Description

Osborn Engineering has an exciting opportunity for a full-time graduate engineer in the **Fire Protection and Life Safety Group** in the Cleveland, Ohio office. Responsibilities for the position include preparation of engineering reports, drawings, and specifications associated with the application of building and fire codes and design of fire alarm and fire suppression systems for a variety of buildings, facilities, and occupancies, including healthcare, industrial, commercial, educational, and sports facilities under the supervision of registered fire protection engineers and associates.

Education

Bachelor of Science (BS) from an accredited engineering program

Minimum Qualifications

- Proficient in Microsoft Office Programs
- Strong verbal and written communication skills
- Ability to work on multiple projects simultaneously
- Ability to work well with a team, including staff in other offices and regions
- Ability to read and apply codes and standards to design projects
- Conduct field work, including inspections of fire protection systems
- Perform hydraulic calculations

Osborn Engineering has been in business more than 125 years and is Cleveland's oldest engineering firm. The company has grown nationally with offices in Ohio, Michigan, Florida, and Tennessee. It is an employee-owned company with established practices in all fields of engineering, including site/civil, structural, mechanical, electrical, plumbing, and fire protection & life safety. Competitive benefits packages. Career development plans are flexible and tailored toward each individual. Many opportunities for growth in the organization.

Interested parties shall send resume and cover letter to Scott Voelkerding, Director of Fire Protection and Life Safety, svoelkerding@osborn-eng.com.
