Company Description

At Coffman Engineers, we serve as both prime consultant and sub consultant on projects large and small, including commercial, retail, institutional, government, industrial, and project/construction management. Incorporated in 1979, we have employees in more than 17 locations serving clients across the United States and overseas.

To meet client objectives and to integrate our many disciplines, we can create teams comprised of civil, structural, mechanical, electrical, fire protection, and corrosion control, as well as commissioning professionals. This ability has made us a leader in the engineering and construction communities, and has strengthened our reputation as being progressive, innovative, and a great place to work.

Job Description

The right team is more than an advantage, it’s a game changer! Come work with a team of engineering professionals dedicated to excellence at Coffman Engineers San Diego Office.

We are seeking a dynamic, innovative, and quality-oriented individual with an interest in engineering to join our team as a Fire Protection Engineering Intern for the summer break of 2021. The ideal candidate will have a minimum of two years of post-secondary education in an accredited fire protection, mechanical, or electrical engineering program.

Qualifications

Eligibility Requirements:

• Enrolled as a full-time student in an engineering program at a nationally recognized, accredited college.

• Two years of required courses completed towards an undergraduate engineering degree.

Preferred Skills:

• Strong written and verbal communication skills.

• Detail orientated and organized.

• Working knowledge and experience with AutoCAD, Revit and Bluebeam.

This position is not eligible for sponsorship. No interview travel or relocation expenses will be provided for this position.
