Fire Alarm Project Manager

The fire alarm project manager at Power Design manages the overall execution and completion of assigned fire alarm projects and the day-to-day operations of fire alarm teams and technicians nationwide out of our St. Petersburg, Florida, office. This critical role works closely with the owner, designers, and other trades to ensure the overall success of project scope. Serving as the lead between operations and installation teams, the fire alarm project manager plays a key role from bid preparation through final project completion with fire marshal approval.

position details/responsibilities...
- Responsible for all business aspects of the project scope, including financial, customer relationship and contracted work.
- Coordinate internal resources and manage customer relationships for successful project execution.
- Ensure the organization delivers quality products on time and within budget.
- Set fire alarm systems teams up for success by ensuring all labor and material management needs are met.

here's what we're looking for...
- Team leader with proven business acumen and at least (7) seven years of experience with fire alarm installation with (3) three years of electrical construction project management experience who thrives when planning and working with project teams.
- Quality-driven leader with a National Institute for Certification in Engineering Technologies (NICET II), Certified Fire Protection Specialist (CFPS) license or higher certification with strong knowledge of industry codes such as NFPA, IBC and NEC.
- Proven knowledge and experience working with fire alarm and AV systems (Crestron experience preferred).
- Excellent communicator and problem solver with a drive for results who wants to be in a client-facing and highly visible role.
- Subject matter experts in the construction industry and with customer retention.
- Those who demonstrate and uphold all of Power Design’s core values, which include integrity, accountability, teamwork, innovation and growth.
- Non-smoker.

At Power Design, we are committed to providing an environment of mutual respect where equal employment opportunities are available to all applicants and teammates without regard to race, color, religion, sex, pregnancy, national origin, age, physical and mental disability, marital status, sexual orientation, gender identity, gender expression, genetic information, military and veteran status, and any other characteristic protected by applicable law. Power Design believes that diversity and inclusion among our teammates is paramount to our success as a national company, and we seek to recruit, develop and retain the most talented people from a diverse candidate pool nationwide.
