Fire Protection Engineer

Protection Development, Incorporated (PDI)
San Antonio, Texas, United States
29 days ago

Description
Protection Development, Incorporated is seeking a fire protection engineer with strong technical skills and a dynamic personality to lead and expand our firm.

Responsibilities
- Engineering and project management are the primary responsibilities of this position.
- Design fire protection and notification systems such as automatic fire sprinkler, fire pump, fire water storage tank, and fire alarm & notification systems.
- Review projects for compliance with ICC and NFPA codes.
- Prepare required engineering drawings, specifications, and reports.
- Perform site visits to observe building conditions and fire protection systems.
- Attend project meetings and interface with other design team members, clients, owners, and building/fire officials, as necessary.

Fire Protection Engineer will also be responsible for participating in business development activities. These activities may include developing relationships with current and potential clients, being active in local organizations, and assisting in the overall growth efforts of the firm.

PDI is looking for someone with:
- experience working independently and juggling multiple priorities.
- knowledge of International Building and Fire Code and NFPA Standards with the ability to interpret these codes,
- excellent written and verbal communication skills,
- working knowledge of software such as HydraCAD and KYPipe, and
- experience using Windows, Office 365, AutoCAD, Adobe Acrobat and/or BlueBeam Revu.

Requirements
Bachelor's Degree or Master's Degree in Fire Protection Engineering from an accredited college, university or engineering school is preferred. Work experience in fire protection engineering and consulting is preferred. Candidates must be licensed to practice engineering in the State of Texas or the ability to be licensed in the State of Texas via comity.

Job Information
Job ID: 60752278
Location: San Antonio, Texas, United States
Position Title: Fire Protection Engineer
Company Name: Protection Development, Incorporated (PDI)
Job Function: Fire Protection Engineer
Job Type: Full-Time
Job Duration: Indefinite
Min Education: BA/BS/Undergraduate
Min Experience: 0-1 Year

Founded in 1985, PDI provides fire protection engineering services such as sprinkler and fire alarm design, engineering evaluations, life safety plans and performance-based designs offering innovative solutions to complex fire and life-safety challenges. PDI provides consulting services for fire, building, and life-safety codes, including plans review and the issuance of commodity letters. PDI also provides government third-party plan review services on behalf of local, state, and federal agencies. In addition to its engineering and consulting services, PDI's permitting staff assist clients in negotiating the complex project permitting process, managing that process from initial application, through all necessary inspections, to final certificate of occupancy.
