

# Fire Protection Engineer - Entry Level

**At Whitman, Requardt & Associates, LLP, we are "People Focused and Project Driven". We have been in business for more than 100 years and we are known for our quality work and quality employees. This is your chance to join our team - help us to design the infrastructure and buildings that improve the world!**

We are currently seeking an Entry Level Fire Protection Engineer with 0-2 years of experience for our Baltimore office.

The Fire Protection Engineer would be presented with the following tasks under direct supervision of senior staff:

- Fire protection systems design and specification.
- Fire alarm and mass notification systems design and specification.
- Life safety and building code analysis and consulting.
- Smoke control systems design.
- Development of performance-based life safety and fire protection features.
- Contract shop submittal review and field inspections.
- The engineer would also be asked to interface with clients, engineers, and architects of varying technical abilities.

## Requirements:

Bachelor's or Master's degree in Fire Protection Engineering.

- Basic knowledge of building and NFPA codes.
- Proficiency in Microsoft Office software.
- Willingness to learn CAD software such as AutoCAD, Microstation and Revit.
- U.S. Citizenship and possession of, or ability to obtain, appropriate level of security clearance (required) for some positions.
- Willingness to take part in light travel.

## Preferred Requirements:

- EIT or PE
