

Early Careers Fire Protection Consultant (REQ ID: 9139)

Who We Are

At WSP, we are driven by inspiring future-ready pioneers to innovate. We're looking to grow our teams with people who are ready to collaborate in building communities and expanding our skylines. To do this, we hire candidates of all experiences, skillsets, backgrounds and walks of life. We actively foster a work environment and culture where inclusion and diversity is part of our fundamental structure. This is delivered behaviorally, through our policies, trainings, local partnerships with professional diverse organizations, internal networks and most importantly with the support and sponsorship of our leaders who help drive our commitment to an inclusive, diverse, welcoming and equitable work environment. Anything is within our reach and yours as a WSP employee. Come join us and help shape the future!

This Opportunity

WSP is currently initiating a search for a **Full-Time Early Careers Fire Protection Consultant** for the following offices: **Arlington – VA, Charlotte – NC, Dallas – TX, Denver – CO, Houston – TX, Irvine – CA, Nashville – TN, New York – NY and San Diego - CA.**

Be involved in projects with our Fire and Life Safety (FLS) Team and be a part of a growing organization that meets our client's objectives and solves their challenges.

This opportunity provides technical assistance and guidance for due diligence, design, development, building, testing, and inspecting of fire and life safety systems on building projects in the public and private sector. Tasks may include assisting with the research, design, concept development, planning, installation, operation, maintenance, and optimal integration of automatic sprinkler, fire alarm, mass notification systems, smoke control, egress analysis, and building and fire code analysis review and compliance. The ideal candidate will generate accurate and concise reports and documentation regarding installation, construction, and operation specifications. Further, they will ensure that responsibilities are delivered and adhered to with a level of quality that meets or exceeds acceptable industry standards for design, safety, and functionality.

Your Impact

- Interpretation of building code, life safety, and fire code requirements. This will include familiarity with both ICC and NFPA codes, including IBC and NFPA 101.
- Review of architectural drawings for compliance with building and fire code requirements
- Producing with guidance fire safety strategy documents to inform and support the chosen building form throughout the design process.
- Design of fire protection and life safety systems including automatic fire sprinkler systems, fire detection and alarm systems, smoke management systems, and egress systems.

- Assist in the preparation of fire engineering calculations including smoke modeling and evacuation analysis from simple hand calculations to complex 3D computational modeling.
- Assist in the commissioning of fire protection and life safety systems in commercial, institutional and industrial facilities.
- Following quality control review processes for all project documentation.
- Preparing technical reports/specifications.
- Participating in department initiatives.

Who You Are

Required Qualifications

- Bachelor or Master of Science Degree in Fire Protection Engineering, or related Fire Protection degree.
- 0 - 1 years of fire protection and life safety consulting experience.
- Excellent verbal and written communication skills.

Preferred Qualifications:

- Certification/Designation as an Engineer in Training (EIT)
- Knowledge of REVIT and AutoCAD.
- Experience in fire protection engineering design applications.

Compensation and Benefits:

WSP provides a comprehensive suite of benefits including medical, dental, vision, disability, life, and retirement savings focused on providing health and financial stability throughout the employee's career.

WSP USA is providing the compensation range and general description of other compensation and benefits that the company in good faith believes it might pay and/or offer for this position based on the successful applicant's education, experience, knowledge, skills, and abilities in addition to internal equity and geographic location. WSP USA reserves the right to ultimately pay more or less than the posted range and offer additional benefits and other compensation, depending on circumstances not related to an applicant's sex or other status protected by local, state, or federal law.

Additional Requirements

- To perform this job successfully, an individual must be able to perform each essential job duty satisfactorily. Reasonable accommodations may be made to enable qualified individuals with disabilities to perform essential job functions.
