Merrick is seeking an entry level Fire Protection Engineer with **one (1) to three (3) years** of experience to join our rapidly growing High Performance Facilities team. With a focus on DoD federal government, Military, and Intelligence Community Facilities this person can be located in any of the following Merrick offices: Greenwood Village, CO, Huntsville, AL, San Antonio, TX, or Merritt Island, FL. A hybrid (work from home and office) schedule is encouraged.

**Job Description**
Working under the direct supervision of a Senior Fire Protection Engineer, the candidate can look forward to the following responsibilities:

- Deliver Fire Protection Engineering subject matter expertise to our unique DoD federal government, Military, and Intelligence Community partners.
- Participate in the creation of design analyses, conceptual designs, program requirements, calculations, equipment selection and layout, and system selection and layout for the following:
  - Fire Suppression Systems
  - Fire Alarm and Mass Notification Systems
  - Clean Agent Systems
  - Smoke Management Systems
  - Life Safety Code and Building Code Analysis
- Collaborate in a design team environment, working together with engineers, designers, and project managers.
- Basic level interface with mission partners, clients, and Authorities Having Jurisdiction (AHJ) to prepare, validate, and deliver key design efforts.
- Grow and expand your career by receiving mentorship from a variety of Mid-Level and Senior Professionals.

**Key Requirements**

- Bachelor’s or master’s degree in Fire Protection Engineering (ABET accredited).
- Engineer-in-training (EIT) or NICET Level 3 and above.
- Willingness to learn; ability to work semi-independently as well as on teams; self-motivated.
- Minimum **one (1)** year of experience in Fire Protection Engineering (internship experience counts).
Preferred Requirements

- Experience in Fire Protection Engineering for DoD federal government, Intelligence Community and Military projects.
- General knowledge of Unified Facilities Criteria (UFC), International Building Codes, Life Safety Codes, and NFPA Codes and Standards.
- Have the willingness and ability to obtain and maintain Top Secret Clearance.
- Proficiency with MS Office, AutoCAD, Revit, MicroStation and/or Bentley BIM is a plus.
- **Client projects for this position require US Citizenship.**
- Ability to obtain PE within 1 year is a plus.
- Local candidates to the following Merrick offices preferred (Greenwood Village, CO; Merritt Island, Florida; Huntsville, AL, San Antonio, TX), remote will be considered.
- Domestic and international travel opportunities available.

Physical Requirements

- Requires the ability to sit for extended periods at a computer workstation.
- Be able to work in an environment with open discussions and visitors without getting distracted.
- May be required to lift up to 20 lbs.
- Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.
- Meets expectations for attendance and punctuality.
- The physical demands described here are representative of those that must be met by an employee to successfully perform the essential functions of this job.
