

Now HIRING!!!

Now HIRING!!!

We are actively recruiting for the **Fire Protection Engineer** position with **Washington Metropolitan Transit Authority (WMATA)**.

The Washington Metropolitan Area Transit Authority (WMATA) is the third largest heavy rail transit system and sixth largest bus network in the U.S. WMATA's Mechanical engineering group (ENGA-Mech) is seeking to fill the position of a Fire Protection Engineer. This engineer will work to support the fire protection with inhouse designs, review of designs and construction projects for Metrorail, Bus, and Ancillary Facilities to ensure compliance with WMATA Design Criteria and Standards along with local codes and regulations. The Fire Protection engineer will also support construction activities including support to field oversight and construction staff along with support to the Office of Plant Maintenance (PLNT) when issues arise on existing systems. The ideal candidate must have excellent communication skills, both written and oral, to ensure that internal and external stakeholders needs are clearly understood and addressed.

Fire Protection Engineer
