Fire Protection Engineer

Apply

Remote US

Who We Are:

AcuTech Group, Inc. is a premier provider of process safety, risk management, chemical security, industrial fire protection engineering, and emergency management services. We have deep expertise in Process Safety Management (PSM), Training, Implementation, Auditing, Process Hazard Analyses (PHA's), Hazard and Operability Studies (HAZOPs), Quantitative Risk Assessment (QRA) and Facility Siting, among other engineering and consulting services. AcuTech has deep specialization in the oil and gas, chemical, LNG, petrochemical, renewables, hydrogen, and other industries handling hazardous materials. Our industry experts deliver these services to leading privately held and publicly traded companies, as well as government agencies, and state sponsored entities globally.

About the Job:

AcuTech Group Inc. is growing rapidly and seeking a highly qualified and motivated **Fire Protection Engineer** in the United States to help fuel our continued growth. Candidates would join a highly respected team of industry leading PSM experts on challenging projects for many of the world's largest corporations.

This position offers an excellent opportunity for personal and professional growth. AcuTech is well established, successful, and growing company that offers competitive salary, bonus and benefits based on experience and position.

What You'll Do:

AcuTech's fire protection engineering services focus on industrial facilities handling highly hazardous chemicals. We are seeking a highly qualified FPE that has the experience and ability to advise our clients on fire hazards and risk assessments, fire code analysis, fire protection systems design, and/or quantitative risk assessments using performance-based approaches including fire development and explosion modeling.

[Privacy](#) - [Terms](#)

Job Requirements:

- Bachelors' degree in fire protection engineering or equivalent related field.
- Minimum 5+ years of direct experience with fire protection engineering.
- Ability to determine fire protection system requirements for highly protected risk applications handling flammable and combustible liquids and gases such as petroleum, chemical and other manufacturing facilities.
- Experience with designing fire detection equipment, alarm systems, and fire suppression systems for industrial facilities.
- Knowledge of internationally accepted fire protection equipment and techniques as well as fire codes and standards interpretation and compliance especially for NFPA 30, 400, 1, 13, 15, 11, 68, 69, 101 and standard building fire codes, such as IBC/IFC.
- Knowledge of combustion and explosion principles and ability to conduct performance-based assessment using fire hazard and consequence modelling methods.
- Ability to investigate causes of fire and explosion incidents.
- Ability/willingness for frequent travel (on average 25-50%) within the US, with occasional international travel for client work and conferences. Valid driver's license required.

What's Preferred:

- Background in System Design or Code Consulting Experience involving industrial chemical applications
- Appropriate licensure necessary to act as senior lead and reviewer on project work (for example, PE license).
- Demonstrated success within a fire protection consultancy context, with proven ability to attract, acquire and develop client relationships.

Diversity, Equity, and Inclusion are core values at AcuTech, and we are passionate about building and sustaining an inclusive and equitable working environment for all. AcuTech is an Equal Opportunity Employer and considers applicants for employment without regard to race, color, religion, sex, orientation, national origin, age, disability, genetics, or any other basis forbidden under federal, state, or local laws.

Voluntary Self-Identification

For government reporting purposes, we ask candidates to respond to the below self-identification survey. Completion of the form is entirely voluntary. Whatever your decision, it will not be considered in the hiring process or thereafter. Any information that you do provide will be recorded and maintained in a confidential file.

As set forth in AcuTech Group, Inc.'s Equal Employment Opportunity policy, we do not discriminate on the basis of any protected group status under any applicable law.

If you believe you belong to any of the categories of protected veterans listed below, please indicate by making the appropriate selection. As a government contractor subject to the Vietnam Era Veterans Readjustment Assistance Act (VEVRAA), we request this information in order to measure the effectiveness of the outreach and positive recruitment efforts we undertake pursuant to VEVRAA. Classification of protected categories is as follows:

A "disabled veteran" is one of the following: a veteran of the U.S. military, ground, naval or air service who is entitled to compensation (or who but for the receipt of military retired pay would be entitled to compensation) under laws administered by the Secretary of Veterans Affairs; or a person who was discharged or released from active duty because of a service-connected disability.

A "recently separated veteran" means any veteran during the three-year period beginning on the date of such veteran's discharge or release from active duty in the U.S. military, ground, naval, or air service.

An "active duty wartime or campaign badge veteran" means a veteran who served on active duty in the U.S. military, ground, naval or air service during a war, or in a campaign or expedition for which a campaign badge has been authorized under the laws administered by the Department of Defense.

An "Armed forces service medal veteran" means a veteran who, while serving on active duty in the U.S. military, ground, naval or air service, participated in a United States military operation for which an Armed Forces service medal was awarded pursuant to Executive Order 12985.

Voluntary Self-Identification of Disability

Why are you being asked to complete this form?

We are a federal contractor or subcontractor. The law requires us to provide equal employment opportunity to qualified people with disabilities. We have a goal of having at least 7% of our workers as people with disabilities. The law says we must measure our progress towards this goal. To do this, we must ask applicants and employees if they have a disability or have ever had one. People can become disabled, so we need to ask this question at least every five years.

Completing this form is voluntary, and we hope that you will choose to do so. Your answer is confidential. No one who makes hiring decisions will see it. Your decision to complete the form and your answer will not harm you in any way. If you want to learn more about the law or this form, visit the U.S. Department of Labor's Office of Federal Contract Compliance Programs (OFCCP) website at www.dol.gov/ofccp.

How do you know if you have a disability?

A disability is a condition that substantially limits one or more of your "major life activities." If you have or have ever had such a condition, you are a person with a disability. **Disabilities include, but are not limited to:**

- Alcohol or other substance use disorder (not currently using drugs illegally)
- Autoimmune disorder, for example, lupus, fibromyalgia, rheumatoid arthritis, HIV/AIDS
- Blind or low vision
- Cancer (past or present)
- Cardiovascular or heart disease
- Celiac disease
- Cerebral palsy
- Deaf or serious difficulty hearing
- Diabetes
- Disfigurement, for example, disfigurement caused by burns, wounds, accidents, or congenital disorders
- Epilepsy or other seizure disorder
- Gastrointestinal disorders, for example, Crohn's Disease, irritable bowel syndrome
- Intellectual or developmental disability
- Mental health conditions, for example, depression, bipolar disorder, anxiety disorder, schizophrenia, PTSD
- Missing limbs or partially missing limbs
- Mobility impairment, benefiting from the use of a wheelchair, scooter, walker, leg brace(s) and/or other supports

- Nervous system condition, for example, migraine headaches, Parkinson’s disease, multiple sclerosis (MS)
- Neurodivergence, for example, attention-deficit/hyperactivity disorder (ADHD), autism spectrum disorder, dyslexia, dyspraxia, other learning disabilities
- Partial or complete paralysis (any cause)
- Pulmonary or respiratory conditions, for example, tuberculosis, asthma, emphysema
- Short stature (dwarfism)
- Traumatic brain injury
