Job Description

Overview

At Page, we promise design that makes lives better. We're actively seeking talented people to join an empowered employee environment. Page provides architecture, engineering, interiors and consulting services on large, complex projects around the world. We credit the success of our projects that build communities to the global diversity of our people's backgrounds and experiences. We're seeking highly creative, committed team members to help us deliver on our promise of making lives better through design. As our market sectors and services grow, we continuously add new opportunities. Will you join us?

Responsibilities

- Design of fire alarm and fire suppression systems
- Review and development of life safety plans
- Life safety and building code consulting
- Collaboration with a variety of engineering and architectural disciplines
- Interface with local AHJs and building owner insurance representatives
- Development of site fire protection features and fire department access plans
- Analysis of smoke movement, means egress, and fire hazards
- Communication with clients and writing technical reports

Qualifications

- Bachelor's of Science degree from an ABET accredited engineering program
- Professional license
- Experience in fire suppression, fire alarm, and life safety review and design
- Experience with Revit, AutoCad, and fire protection related computational programs
- Knowledge of adopted building codes and governmental (DoD, VA, GSA) standards
- Experience working with NFPA codes and standards

Proven track record of communication and interpersonal skills

About Page

Our firm started as a partnership between two brothers in 1898. We have been making history for over 100 years. We are expanding leadership opportunities to all employees who will continue to guide the firm's evolution and expansion. At Page, we're all owners. We own the vision, we own the work and we're owners in the firm through our Employee Stock Ownership Plan (ESOP). Owning stock in Page means you get returns on the hard work you invest in the firm. It helps better prepare you for retirement and helps better prepare the firm to pass its success to the next generation.
