This job is open to

The public
U.S. Citizens, Nationals or those who owe allegiance to the U.S.

Clarification from the agency
This position is open to all U.S. Citizens or U.S. Nationals. Note: Federal employees with permanent status or individuals eligible for special appointing authorities may also apply to Job Announcement # 24R-MP-310158-MPA-OSHEM More than one selection may be made from this announcement.

Duties
The Fire Protection Engineer conducts fire protection engineering surveys, performs inspections and engineering reviews, inspects and tests fire protection systems and/or equipment, and prepares fire investigation reports.

In this position, you will:

- Reviews design drawings and specifications and construction submittals for new exhibits, construction and alterations for various building occupancy types, to evaluate adequacy of both fire protection and life safety.
- Conducts fire protection engineering surveys of Smithsonian facilities to evaluate construction, fire protection and life safety features, and occupational hazards.

- Participates in meetings and provides fire prevention/life safety training and presentations involving diverse groups including management, museum staff and facilities personnel.

- Develops fire protection engineering reports that convey deficiencies and provides recommendations based on established standards and procedures.

Requirements

Conditions of Employment

- Pass Pre-employment Background Investigation
- May need to complete a Probationary Period
- Maintain a Bank Account for Direct Deposit/Electronic Transfer
- Males born after 12/31/59 must be registered with Selective Service.

Qualifications

Basic Requirements:
A. Degree: Engineering. To be acceptable, the program must: (1) lead to a bachelor's degree in a school of engineering with at least one program accredited by ABET; or (2) include differential and integral calculus and courses (more advanced than first-year physics and chemistry) in five of the following seven areas of engineering science or physics: (a) statics, dynamics; (b) strength of materials (stress-strain relationships); (c) fluid mechanics, hydraulics; (d) thermodynamics; (e) electrical fields and circuits; (f) nature and properties of materials (relating particle and aggregate structure to properties); and (g) any other comparable area of fundamental engineering science or physics, such as optics, heat transfer, soil mechanics, or electronics.

OR

B. Combination of education and experience -- college-level education, training, and/or technical experience that furnished (1) a thorough knowledge of the physical and mathematical sciences underlying engineering, and (2) a good understanding, both theoretical and practical, of the engineering sciences and techniques and their applications to one of the branches of engineering. The adequacy of such background must be demonstrated by one of the following:

1. Professional registration or licensure -- Current registration as an Engineer Intern (EI), Engineer in Training (EIT)1, or licensure as a Professional Engineer (PE) by any State, the District of Columbia, Guam, or Puerto Rico. Absent other means of qualifying under this standard, those applicants who achieved such registration by means other than written test (e.g., State grandfather or eminence provisions) are eligible only for positions that are within or closely related to the specialty field of their registration. For example, an applicant who attains registration through a State Board's eminence provision as a manufacturing engineer typically would be rated eligible only for manufacturing engineering positions.

2. Written Test -- Evidence of having successfully passed the Fundamentals of Engineering (FE)2 examination or any other written
1 For more information about EI and EIT registration requirements, please visit the National Society of Professional Engineers website at: http://www.nspe.org.

2 The FE examination is not administered by the U.S. Office of Personnel Management. For more information, please visit: http://www.nspe.org/Licensure/HowtoGetLicensed/index.html.

In addition to the basic qualification requirement above:

**GS-07: Experience:** You qualify for this position if you have one year of specialized experience equivalent to at least the GS-05 level in the Federal Service. **For this position, specialized experience is defined as** applying fire protection engineering principles in design review and construction oversight, conducting risk assessment surveys, and preparing fire protection engineering reports.

Experience refers to paid and unpaid experience, including volunteer work done through National Service programs (e.g., Peace Corps, AmeriCorps) and other organizations (e.g., professional; philanthropic; religious; spiritual; community, student, social). Volunteer work helps build critical competencies, knowledge, and skills and can provide valuable training and experience that translates directly to paid employment. You will receive credit for all qualifying experience, including volunteer experience.

Part-time and/or unpaid experience related to this position will be considered to determine the total number of years and months of experience. Be sure to note the number of paid or unpaid hours worked each week.

**Or Education:**

One year of graduate-level education or superior academic achievement.

Graduate Education: Completion of graduate level education is qualifying if it provided the knowledge, skills, and abilities necessary to do the work. One year of full-time graduate education is considered to be the number of credit hours that the school attended has determined to represent 1 year of full-time study. If that number cannot be obtained from the school, 18 semester hours should be considered an academic year of graduate study. Part-time graduate education is creditable in accordance with its relationship to a year of full-time study at the school attended.

Superior Academic Achievement Provisions:

A bachelor’s degree in a curriculum that is qualifying for the position to be filled, plus at least one of the following superior academic achievement provisions:

1. A grade-point average (GPA) of B (3.0 or higher on a 4.0 scale) for all completed undergraduate courses, or courses completed in the last two years of undergraduate curriculum; or

2. A grade-point average (GPA) of B+ (3.5 or higher on a 4.0 scale) for the required courses in your major field of study, or required courses in your major completed in the last two years of undergraduate study; or

3. Rank in the upper one-third of your class in the college, university, or major completed in the last two years of undergraduate study; or

4. Election to membership in a national scholastic honor society, other than freshman honor societies. Honor societies that have been approved are listed in the American College of Honor Societies. Booklet of Information (1992-95) and/or Baird’s Manual of American College Fraternities (1991).

To verify your claim for this provision, please submit a college transcript(s) showing that you maintained a grade point average
(GPA) of 3.0 or higher out of a possible 4.0 for all 4 years of undergraduate courses, or on all undergraduate courses completed during the final 2 years of your curriculum, including all transferred courses.

Note: GPAs are to be rounded to one decimal place. For example, 2.95 will round to 3.0 and 2.94 will round to 2.9. If more than 10 percent of your undergraduate course work (credit hours) was taken on a pass/fail or similar basis, your claim must be based on class standing or membership in an honor society.

GS-09: Experience: You qualify for this position if you have one year of specialized experience equivalent to at least the GS-7 level in the Federal Service or comparable pay band system. For this position specialized experience is defined as applying fire protection engineering principles in design review and construction oversight; conducting risk assessment surveys; performing or evaluating performance-based engineering analyses; and preparing fire protection engineering reports.

OR

Education (You must submit transcripts if attempting to qualify via education): Two full years of progressively higher-level graduate education leading to a master’s or equivalent degree in fire protection engineering or engineering field related to the position may be substituted to meet the experience requirements.

Or a Combination: Education and experience may be combined to meet the basic qualifications. For a full explanation of this option please see the Qualification Standards.

Special Instructions for Foreign Education: If you are qualifying by education and/or you have education completed in a foreign college/university described above, it is your responsibility to provide transcripts and proof of U.S. accreditation for foreign study. For instructions on where to fax these documents, see the "Required Documents" section of this announcement.

Education

Basic Education Requirements

A. Degree: Engineering. To be acceptable, the program must: (1) lead to a bachelor’s degree in a school of engineering with at least one program accredited by ABET as a professional engineering curriculum; or (2) include differential and integral calculus and courses (more advanced than first-year physics and chemistry) in five of the following seven areas of engineering science or physics: (a) statics, dynamics; (b) strength of materials (stress-strain relationships); (c) fluid mechanics, hydraulics; (d) thermodynamics; (e) electrical fields and circuits; (f) nature and properties of materials (relating particle and aggregate structure to properties); and (g) any other comparable area of fundamental engineering science or physics, such as optics, heat transfer, soil mechanics, or electronics.

OR

B. Combination of education and experience -- college-level education, training, and/or technical experience that furnished (1) a thorough knowledge of the physical and mathematical sciences underlying engineering, and (2) a good understanding, both theoretical and practical, of the engineering sciences and techniques and their applications to one of the branches of engineering.

Additional Information

This position is included in the bargaining unit.

Current or Former Political Appointees: Beginning January 1, 2010, agencies must seek prior approval from OPM before they can appoint a current or recent political appointee to a competitive or non-political excepted service position at any level under the provisions of title 5, United States Code. If you are currently or have been within the last 5 years, a political Schedule A, Schedule C, or Non-career SES employee in the executive branch, you MUST disclose that to the Office of Human Resources. Submit a copy of
your applicable SF-50, along with a statement that provides the following information regarding your most recent political appointment:

- Position title;
- Type of appointment (Schedule A, Schedule C, Non-career SES, or Presidential Appointee);
- Agency; and,
- Beginning and ending dates of appointment.

**Recruitment Incentive:** Recruitment incentive(s) may be authorized for this position. However, approval for incentives are contingent upon various availability. If authorized, certain incentives will require the incumbent to sign a service agreement to remain in the Federal government for a certain time period.

**Note:** This statement does not imply nor guarantee an incentive will be offered and paid.

**Selections may be made for vacancies across the Smithsonian Institution (SI). By applying to this position, you agree to allow your application and other personal information to be shared with one or more SI hiring officials for employment consideration for same/similar positions within the location(s) identified in this announcement.**

**Benefits**

The Smithsonian offers a comprehensive benefits package that includes, in part, vacation and sick leave, holidays, health/life insurance, accident insurance, and excellent retirement program options.

Please see Benefits at [https://www.si.edu/OHR/benefits](https://www.si.edu/OHR/benefits) for a complete description.

Flexible Spending Accounts - [https://www.fsafeds.com/](https://www.fsafeds.com/)

Long Term Care Insurance - [http://www.ltcfeds.com](http://www.ltcfeds.com)

Retirement Program - [https://www.opm.gov/retirement-services/](https://www.opm.gov/retirement-services/)

**How You Will Be Evaluated**

You will be evaluated for this job based on how well you meet the qualifications above.

Applicants for this position may be evaluated in multiple stages. The first stage is an evaluation of your responses to the online multiple-choice questions that assess your experience, education, and/or training for the job-related competencies below:

- Knowledge of fire protection engineering principles, practices, and techniques for reviewing design/construction projects, conducting risk analysis, and evaluating adequacy of fire/life safety controls.
- Skill in applying established standards, including International Code Council and National Fire Protection Association codes.
- Ability to verbally articulate engineering concepts to others.
• Ability to communicate in writing to produce reports articulating complex engineering concepts using proper grammar and context.

Applicants who meet or exceed minimum qualifications will be assigned to one of three category groups based on job-related criteria:

Best Category - Meets the minimum qualification requirements and excels in most of the job-related competencies above. Better Category - Meets the minimum qualification requirements and satisfies most of the job-related competencies above. Good Category - Meets the minimum qualification requirements but does not satisfy most of the job-related competencies above to a substantive degree.

This category rating process does not add veterans' preference points or apply the "rule of three", but protects the rights of veterans by placing them ahead of non-preference eligibles within each category. A selecting official may make selections from the highest quality category (Best Category) provided no preference eligible in that category is passed over to select a non-preference eligible in that category unless the requirements of 5 U.S.C. 3317(b) or 3318(b) are satisfied. Preference eligibles who meet minimum qualification requirements and who have a compensable service-connected disability of at least 10 percent must be listed in the highest quality category, except when the position being filled is scientific or professional at the GS-9 grade level or higher. Applicants who have not submitted a resume in the USAJobs system and/or have not answered all of the vacancy questions will not be considered for this position.

Important Note:

Your resume and supporting documentation will be compared to your responses to the occupational questionnaire or other assessment tool for consistency. If a determination is made that you have rated yourself higher than is supported by your resume, you will be assigned a rating commensurate to your described experience. Your resume should provide sufficient information regarding how your education and experience relate to this position, including the major duties and qualifications criteria listed.

You may preview questions for this vacancy.

Required Documents

Your application package should include the following documents:

• Resume - Your resume can be uploaded and attached to your application or created using the USA Jobs on-line resume builder. Ensure your resume contains the job title (including the occupational series and grade if it is Federal), job-related qualifications, starting and ending dates (month and year), hours worked per week, and salary for each employment period. It is your responsibility to ensure all information is submitted. Failure to include this information may result in disqualification for the position.

For assistance with creating a resume, please click here.

• Proof of Veteran’s Preference - DD214 (Member 4 Copy), if you are a veteran. Additionally, applicants claiming 10-point preference must complete Standard Form (SF) 15, Application for 10-Point Veteran Preference, as well as additional documentation required by the SF-15, such as a VA letter.

• Unofficial school transcripts, if the position has an education requirement or if you are using education to qualify. If selected for the position, you must provide an official transcript before appointment.

• Proof of U.S. accreditation for foreign study, if applicable.

If you are relying on your education to meet qualification requirements:
Education must be accredited by an accrediting institution recognized by the U.S. Department of Education in order for it to be credited towards qualifications. Therefore, provide only the attendance and/or degrees from schools accredited by accrediting institutions recognized by the U.S. Department of Education.

Failure to provide all of the required information as stated in this vacancy announcement may result in an ineligible rating or may affect the overall rating.

How to Apply

Click on the "Apply Online" button on the upper right side of the page. Please Note:

- You must apply for this position online through the 'Apply Online' button and submit required supplemental documents (if they are relevant to you).
- You may submit required documents by uploading them online during the application process.
- The complete application package, including any required documents, is due in the Smithsonian Office of Human Resources on the closing date of the announcement by 11:59 PM Eastern Time.
- If you are unable to apply online, paper applications may be accepted with prior approval of the Contact Person listed below.

Next steps

At the end of the application process you will be able to create and save a PDF file that contains your responses to the assessment questions. You may save this file as initial receipt of your application. After the job announcement closes, you will receive an email from the Smithsonian with confirmation of receipt. The Smithsonian receives many applications for each job. Each application is reviewed carefully which may take a few weeks. We will send you an e-mail to update you as we go through phases of the application review process. You may also check your application status by logging into www.usajobs.gov and selecting the tab "My USAJOBS" e-mailing vacancy.info@si.edu; or by contacting the Office of Human Resources Representative listed.
• Tips on applying for Smithsonian jobs are available at [https://www.si.edu/OHR/howtoapply](https://www.si.edu/OHR/howtoapply).

• The Smithsonian does not pay relocation expenses but recruitment incentives may be authorized.

• The Smithsonian embraces diversity and equal employment opportunity ([www.si.edu/oeema](http://www.si.edu/oeema)).
