

IRTBAT Holding Company

Fire Protection Engineer

 Jubail, Saudi Arabia

 Full-time

Job Summary

IRTBAT Holding Company is looking for a qualified and experienced Fire Protection Engineer to join our team in Jubail, Saudi Arabia, ensuring the highest standards of safety and industrial security across our projects.

Requirements

- Bachelor's degree in Fire Protection Engineering, Safety Engineering, or a related field.
- Minimum 8 years of relevant professional experience.
- Strong knowledge of fire protection systems, fire safety standards, and engineering practices.
- Experience in fire protection design, inspection, and safety requirements.
- Ability to prepare and review technical reports and engineering documents.
- Strong communication and problem-solving skills.
- Registration with the Saudi Council of Engineers (SCE) is required or preferred, as applicable.

Key Responsibilities

- Design, review, and monitor fire protection systems and related engineering activities.
- Ensure compliance with applicable fire safety codes, standards, and regulations.
- Conduct inspections and provide technical recommendations.
- Coordinate with project teams, consultants, and contractors.
- Prepare technical reports and documentation related to fire protection.
