

Nuclear Power Industry Search & Placement Specialists

Gilbert Consulting Services, Inc., is a national award-winning search and placement firm that has been specializing with placing top talent in the Nuclear Power and Electric Utility industry since 1994.

One of our clients, a commercial nuclear power utility, has a need for a **Fire Protection Engineer**.

This exciting career opportunity offers:

- A warm weather climate where you can be done shoveling snow forever!
- Work a family friendly 4x10's schedule and enjoy 3 day weekends!
- Work on an exciting and diverse array of diverse projects.
- Numerous career opportunities abound at the Nuclear Site or at the Corporate Office for a top performer at this nuclear utility!
- The company offers an excellent compensation, benefits and relocation package for the successful candidate.

As a **Fire Protection Engineer**, you will develop and implement special projects, corrective actions, and improvement programs associated with the fire protection systems and components at a commercial nuclear power plant. You will also maintain Fire Protection Design Basis and provide support to other organizations at the site. Other duties include providing cost-effective modification designs to improve the fire protection program and the safe shutdown capability of the plant. In this role, you will be responsible for maintaining consistency with the site's licensing basis, prepare fire protection impact reviews and evaluations, combustible load and suppression capability calculations, and fire hazard analysis.

The qualified candidate for **Fire Protection Engineer** MUST have:

- * BS Degree in Engineering (Fire Protection, Mechanical or Electrical) required.
- * Two (2) + years of engineering (programs or design or systems) experience working with a variety of Fire Protection Systems.
- * Technical knowledge of 10CFR50.48, BTP APCS 9.5-1, Reg. Guide 1.198, and NFPA 805.
- * Strong communication and interpersonal skills.
- * Excellent references.

If you know someone who meets or exceeds the above qualifications please have them email a resume (in complete confidence) to jimk@gcscservices.com.

Please forward this email to anyone you think may be qualified for this position.

Best regards,
