Job Description

Fire Protection Intern - (BIA0002AJ)

Description

The Buildings & Infrastructure Line of Business is a global network of employees, which serves both the private and public sector. Our employees work to shape the communities we live in by creating world-class projects that transform the future development patterns of those communities. We provide our clients award-winning planning, engineering, architectural and interior design, construction and program management, and design-build project delivery. The Jacobs business model allows us to successfully service our clients, leverage our integrated services, and provide our employees with growth opportunities while delivering global solutions to our client's local programs.

We consistently receive high rankings from Engineering News-Record (ENR) in many classifications, including the categories of Top Design Firms, Top Contractors, Top Green Buildings Design Firms, and Top Transportation Companies.

Position Summary:

Internship positions at Jacobs provide college students an opportunity to gain real-world experience in their specific area of study. Interns will work alongside world-class professionals in a fast-paced, professional setting which provides interns invaluable experiences applying the knowledge and skills learned through education in a business environment.

- Perform routine aspects of engineering requiring knowledge and application of basic engineering principles under close supervision.
- May use computer-assisted engineering software and equipment to perform engineering tasks.
- Collects and prepares data for evaluation.
- Assisting in the coordination of projects from conception (feasibility) through final plan preparations.
- Providing support to Fire Protection engineering staff members as needed.

Qualifications

- Candidate needs to be enrolled in at least their junior year within a Fire Protection Engineering curriculum.
- GPA 3.0 or higher is required.
- Strong analytical, conceptual, communication, and organizational skills required.
- Ability to effectively interface with all levels of personnel and management required.
- Ability to work and thrive in a team environment required.
- Strong judgment and problem solving skills required.
- Ability to self-motivate and work productively without supervision required.
- Working knowledge of Word and Excel required.
- Retail, Restaurant, Facilities or Commercial project experience is preferred.
- Knowledge of AutoCAD and Revit is preferred.

At Jacobs, we help prepare people for new opportunities and challenges. With positions at every level, openings in multiple disciplines, expertise in a range of markets and offices around the globe, we create an environment where you can learn, grow, and thrive. From our competitive benefits program to our Health and Safety initiative of Beyond Zero workplace injuries, we believe that you'll find a flourishing career.

Jacobs is an Equal Opportunity/Affirmative Action Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, veteran status or other characteristics protected by law. Jacobs is a background screening, drug-free workplace.

Primary Location: United States-Virginia-Arlington

Job Posting: Sep 17, 2018, 10:33:52 AM

About Jacobs

With approximately \$11 Billion in revenues, Jacobs is one of the world's largest and most diverse providers of technical, professional, and construction services, including all aspects of engineering, architecture, construction, operations and maintenance, as well as scientific and specialty consulting. We serve a broad range of companies and organizations, including industrial, commercial, and government clients across multiple markets and geographies. Our global network includes approximately 54,000 employees in more than 230 offices in more than 30 countries, with operations in North America, South America, Europe, the Middle East, India, Australia, Africa, and Asia.
