### Entry Level Fire Protection Engineer

US-FL-Jacksonville

ID 2018-2304 # of Openings 1 Category Engineering Job Level Entry Level

#### The Opportunity

**We are currently seeking an Entry Level Fire Protection Engineer for our Corporate Practice.**

The Entry Level Fire Protection Engineer is an exciting opportunity to join an experienced team of professionals providing creativity and comprehensive services to both private and public sector clients. Responsibilities include assisting in building design and evaluations for fire suppression systems, fire alarm systems, and life safety and code compliance. Responsibilities also include the evaluation of existing fire protection systems and buildings. Future projects can include medical buildings, data centers, office buildings, warehouse and industrial facilities, airport hangars and terminals, and education facilities.

#### Requirements:

- Bachelor's or Master's degree in Fire Protection Engineering from an ABET accredited university
- 0-2 years of work experience in Fire Protection Engineering design of fire protection systems and performing life safety and code evaluations
- Working knowledge of AutoCAD or REVIT and Microsoft Office (Word, Excel, and PowerPoint)
- Co-op/Internship experience in Fire Protection Engineering, preferred not required
- EIT Certification, preferred not required

#### Core Competencies:

In addition to the position's skills, education and experience requirements, the following RS&H competencies are considered foundational to understanding performance, now and in the future.

- Teamwork
- Leadership
- Change Orientation
- Communication
- Ingenuity
- Client Focus

If this sounds like the role for you and you're ready to join an amazing team, please apply.

**An Equal Opportunity Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, or protected veteran status and will not be discriminated against on the basis of disability.**

Please view Equal Employment Opportunity Posters provided by OFCCP here.

#### The Team

Our team designs facilities for clients in the Corporate, Healthcare, Science and Technology industry. By working with our clients and listening to their needs, we gather a deep understanding of their desired outcomes, practicing creativity and innovation along the way. Become part of a team that's redefining client service and success in a rapidly changing world.

#### The Company

RS&H provides fully integrated architecture, engineering, and consulting services to help clients realize their most complex facility and infrastructure projects for land, air, and space. We are committed to bringing extraordinary solutions to our clients through the promise of imagination, ingenuity, and innovation. With a tradition of excellence that began in 1941, we are consistently ranked among the

innovation. With a tradition of excellence that began in 1941, we are consistently ranked among the nation's top 100 design firms. We attribute our success and unwavering commitment to our core values of: integrity, quality service, business success and valuing associates.
